RE: Request to use an existing water well, under Esmeralda County Permit 69220, as a temporary groundwater source for mineral exploration at the Boss Mine Project, Clayton Valley Hydrographic Basin (143) in Esmeralda County, Nevada.

Proposed Location: **143 02S 39E 28 Bd**

Permit 69220, UTM (m): 4,176,742N, 442,435E Datum: UTM, NAD83

Dear Mr. Abrams:

As provided in Nevada Administrative Code (NAC) 534.442, authorization is hereby **granted** to utilize the temporary water source described in the waiver and as listed above. The granting of this waiver does not grant or infer any rights of appropriation of the public waters and shall not be deemed to result in the development of any equity. **This authorization expires March 30, 2015.**

The temporary water is limited to mineral exploration drilling as described in the waiver and the duty of water shall not exceed 120,000 gallons. Water use must be measured and recorded and submitted to this office within thirty (30) days from completion of the project or expiration of the waiver.

This waiver does not grant or infer any rights of ingress or egress, any appropriation of water, and shall not be deemed to result in the development of any equity. It is expressly understood that this waiver does not relieve the operator of the permitting requirements of other state, federal or local agencies.
