Dear Mr. Facque,

This letter is in response to your waiver extension request received in this office on November 9, 2017. As provided in Nevada Administrative Code (NAC) 534.441 of the Regulation for Water Well and Related Drilling, permission is herewith **denied** to allow extension of Waivers MM-214 and MM-218 as mineral exploration wells.

The intent for the denial of these waiver applications is that new regulations are being adopted by the Nevada Division of Minerals that will oversee recovering dissolved mineral deposits that will be in force on January 1, 2018.

Should you have any questions regarding this matter, please contact me at the address above, by email at [khaffey@water.nv.gov](mailto:khaffey@water.nv.gov) or at 775-684-2814.

Sincerely,

  
Kenneth M. Haffey  
Staff Engineer

**RE: Summary of water usage for MM-214, MM-215, MM-216, MM-217, MM-218- Intor Resources Corporation**

Dear Mr. Haffey:

During the 2017 drilling program Intor Resources Corporation experienced administrative constraints on this project. No pump tests were conducted from any of the boreholes and no water was pumped under Mineral Exploration Waivers MM-214 through MM-218 in 2017. Intor Resources has requested waiver extensions for waivers MM-214 through MM-218.

If you have any questions, please do not hesitate to contact my office.

Thank you,
