RE: Cancellation of Waiver Number MO-3218 to install one temporary monitor well located on Placer Claim 75, Esmeralda County APN: 006-271-02, Nevada, within the NE¼ SW¼ Section 27, T.01S., R.40E., M.D.B.&M. (454767 E, 4186294 N, UTM Coordinates, NAD 83/WGS 84) and within the Clayton Valley Basin (143).

Dear Mr. Rud:

It is understood that you have decided not to construct a monitor well at the described location, at this time. Per your email received October 12, 2016, waiver number MO-3218 is hereby **cancelled**. Any borehole started at this location must be plugged within 60 days.

If you have any questions concerning this matter, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Tracy Geter".

MO-3218

Mr. John O. Rud
President
GeoXplor Corporation
P.O. Box 1736
Tonopah, Nevada 89049

RE: Request for waiver to install one (1) temporary monitor well (LX1) to assess the hydrologic conditions, brine characterization and ground water levels located on Placer Claim 75, Esmeralda County APN: 006-271-02, Esmeralda County, Nevada, within the NE¼ of the SW¼ of Section 27, T.01S, R.40E (454767 E, 4186294 N, UTM Coordinates, NAD 83/WGS 84) and within the Clayton Valley Basin (143).

Dear Mr. Rud:

As provided in Nevada Administrative Code (NAC) § 534.450 of the Regulation for Water Well and Related Drilling, permission is herewith **granted** to install one (1) temporary monitor well to assess water conditions as described in your request received August 18, 2016 (revised August 31, 2016). Your statement ensuring GeoXplor Corporation responsibility for abandonment of the well upon project completion was received in this office on August 18, 2016.

This office also waives the provisions that require a mandate to install monitoring wells, NAC § 534.4351 (1)(c). The purpose of the well is to assess the hydrologic conditions, brine characterization and ground water levels located on Placer Claim 75, Esmeralda County, Nevada. The wellhead shall be protected from damage due to vandalism or sunlight. If polyvinyl chloride (PVC) casing is used, then these wells must be completed with ASTM F-480 (Sch. 40 or heavier) well casing as provided in NAC § 534.362.

Glued casing joint connections will not be allowed. Full compliance with the remainder of the statute and regulation is required.

A plot map showing the actual location of the completed wells must be submitted upon completion of the drilling operations. Please include an accurate description of the location of the monitor well on the completion reports (GPS coordinates are required).

The well driller's reports shall bear this waiver number: MO-3218.

Authorization to drill under this waiver expires one (1) year from the date of this letter.

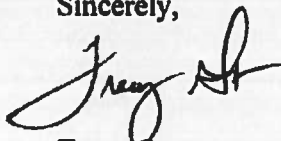

The well driller must have a copy of this waiver in possession at all times during drilling activities pertaining to this project. This well may only be pumped when necessary to obtain samples.

Please note that you must notify the Nevada Division of Environmental Protection (NDEP) for possible permitting requirements for groundwater or temporary surface discharge permits, which may include Underground Injection Control (UIC) or National Pollution Discharge Elimination System (NPDES) Permit Numbers. For more information regarding the permitting process with NDEP, please contact Mr. Nicholas Brothers at (775) 687-4670.

The wells shall be plugged and abandoned, as provided by regulation, upon project completion. The current owner of Assessor's Parcel Number 006-271-02 is shown as Bureau of Land Management by the records of the Clark County Assessor's office. This waiver does not imply or grant any land use agreements between Bureau of Land Management and any land owners. It is expressly understood that this authorization does not relieve the operator of the requirements of any other state, federal or local agencies.

If you have any questions, please contact this office at 702-486-2770.

Sincerely,

Tracy Geter
Drilling Supervisor
