STATE OF NEVADA PROOF OF APPROPRIATION OF WATER

(Statutory vested water rights are those with a priority date prior to: March 1, 1905 for All Surface Sources; March 22, 1913 for Underground Artesian Waters; March 25, 1939 for Underground Percolating Water)

USE(S):.
Primary (Please select only one):
Irrigation Stock water ✓ Mining and Milling Domestic
Municipal Industrial Quasi-Municipal Commercial
Federal Reserved Right Other (OTH)
Secondary (Select all that may be applicable):
Stock water Domestic
NAME OF CLARMANT, During M.
NAME OF CLAIMANT Daniel S. Venturacci
Address 8500 Schurz Highway City of Fallon County of Churchill
State of Nevada Telephone No. 775-426-0918 Email Address buckaroodan@gmail.com
1. Source of water Etchemendy Spring No. 3
Name of natural water source (use separate proofs for each major source such as a spring, creek, river or underground)
2. The means of diversion pipeline, troughs and reservoir
Dam and ditch, pipeline, flume, natural channel, underground, etc.
3. The water is diverted from the following point(s):
NE1/4SW1/4 Section 12, T.25N., R.54E M.D.B.&M, or at a point from which the NW corner of Section 11, T.25N., R.54E., M.B.D.&M, bears \$67°50'E a distance of 7865 feet (use map filed under permit 7984 certificate \$1887)
(List all points of diversion from the source, attaching a sheet if necessary. Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner for any other use than stock water. If on unsurveyed land, it should be stated.)
4. The date of construction of the ditch or other works was begun Prior to 1860
and completed See historical research (Chain of title-proofs volume 1-taxation rolls)
5. The nature of the claimant's title to the land upon which the source of water and place of use is located:
1859-Possesory interest to current patented owner through transfer of title
Patented, deeded, public domain with grazing permit, etc.
5. The claimant's water right <u>was / was not</u> recorded in the office of the County Recorder of (circle one)
Eureka County, at Page 13 of Book B of .
7. The amount of water diverted for the claim's purpose has been measured at
0.013 cfs cubic feet per second.
448.83 gallons per minute equals 1 cubic feet per second
06/15 - POA MAY 3 1 2016 Page 1

(List all places of use for the primary and any secondary purposes being claimed, attaching additional sheet(s) as needed. Describe them as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated. If the watering of livestock is accomplished by utilizing the natural stream channel, then describe the 40-acre legal subdivision at the beginning (upstream point) and the legal subdivision at the end of the stream reach.)

QUESTIONS REGARDING WATERING OF LIVESTOCK

9. The approximat	e number of an	imals watered	by the clain	nant during the	e first year of	1894	was
300 cattle	150	horses	2500	sheep		Year other (descri	be in remarks)
The watering was	conducted durin	ng each of the t	following m	onths: Januar	y 1 through l	December 31	of each year
10. The approxima	te number of ar	iimals watered	by the clair	mant in subseq	juent years w	/as:	
600 cattle	150	_ horses	2000	sheep		other (descri	be in remarks)
11. The water is in	mpounded in	Troughs, and I					
			i rough(s),	tank(s)s, pool(s),	reservoir, natura	ai channei, etc.	
	QU	ESTIONS W	TTH REGA	ARD TO IRR	<u>IGATION</u>		
12. The date of su	rvey of ditch, ca	anal, or pipe li	ne was				<u></u>
13. The dimension	ns of the ditch o	r canal as orig	inally constr	ructed were: \	Width on bot	tom	feet,
width on top	fee	t, depth		feet, for		lineal feet of	improvement,
on a grade of	feet p	er thousand fe	et. If condu	it has been sin	nce enlarged,	complete que	estions 16 & 17.
14. The dimension	is and type of p	ipeline as orig	inally constr	ructed were: I	Diameter of		inches with
a type of pipe of							feet in length.
	Examples: Corrugat	ed Metal Pipe, Ri	veted Iron Pipe	e or Wrapped Woo	oden Pipe		
If conduit has beer	since enlarged	, complete que	estions 16 &	17.			
15. The conduit <u>h</u>	as / has not b (circle one)	een enlarged.				v	
16. The work of a	enlargement of t	he ditch, cana	l or pipeline	commenced			
and completed				_		e ce	VED
06/15 - POA						MAY 31	2016 Page 2

	larged ditch or canal are: Width o		feet,
width off top	feet, depth	feet, for	lineal feet of
improvement, on a grade of	feet per thousand	d feet.	
18. The dimensions of the enl	arged pipeline are: Diameter of		inches with a type of nip
of	Pipe, Riveted Iron Pipe or Wrapped Woo	for	lineal feet in length
Examples: Corrugated Metal	Pipe, Riveted Iron Pipe or Wrapped Woo	oden Pipe	
19. The claimant <u>is / is not</u> t (circle one)	he owner in the above-described	conduit.	
	If claimant is an owner in the conduit, sta	te interest held on this line	
20. Crop(s) of	(0.0 alfalfa - 11 alfalfa - 12		
	(e.g. anama, native hay, grain, or	chard, meadow or diversifi	ed pasture)
have been grown upon the land	l(s) irrigated.		
1. The season of use for irrigation	ation is typically from	to)
f each year. The average num	ber of cuttings in a year is typical	lly cutti	ngs and the maximum numbe
f cuttings in a year is	cuttings.		
2. The water claimed <u>has</u>	/ has not been used for irrigati	on each and every ye	ar since the right was initiated
3. The years during which no	/ has not been used for irrigation or of the quantity at any time, full information a	turing which the full :	viotom eliché succession d
3. The years during which no if water was not used, or used in reduct sheet if necessary):	water was used for irrigation or o	turing which the full :	viotos si ché su co
3. The years during which no if water was not used, or used in reduct sheet if necessary):	water was used for irrigation or o	turing which the full :	votos sight
3. The years during which no if water was not used, or used in reduct sheet if necessary): 4. The characteristics of the so	water was used for irrigation or of condend quantity at any time, full information a condend quantity at any time, full information and condend quantity at a condend q	during which the full was to causes and duration of	water right was not used were f non-use should be given, appending
23. The years during which no if water was not used, or used in reduct sheet if necessary): 4. The characteristics of the so	water was used for irrigation or deed quantity at any time, full information a color of the quantity at any time, full information a color of the quantity of water over the color of the quantity of the quan	during which the full of the stocauses and duration of the claimed place of usater used to irrigate the	water right was not used were f non-use should be given, appending
3. The years during which no if water was not used, or used in reduct sheet if necessary): 4. The characteristics of the so	water was used for irrigation or of condend quantity at any time, full information a condend quantity at any time, full information and condend quantity at a condend q	during which the full of the stocauses and duration of the claimed place of usater used to irrigate the	water right was not used were f non-use should be given, appending
3. The years during which no if water was not used, or used in reduct sheet if necessary): 4. The characteristics of the so cubic featuring an average irrigation season.	water was used for irrigation or deed quantity at any time, full information a solution and the solution of th	during which the full was to causes and duration of the claimed place of us ater used to irrigate the re-feet per annum.	water right was not used were f non-use should be given, appending
3. The years during which no f water was not used, or used in reduct sheet if necessary): 4. The characteristics of the so the minimum flow needed cubic for the source and an average irrigation season.	water was used for irrigation or deed quantity at any time, full information a color of the quantity at any time, full information a color of the quantity of water over the color of the quantity of the quan	during which the full was to causes and duration of the claimed place of us ater used to irrigate the re-feet per annum.	water right was not used were f non-use should be given, appending
3. The years during which no f water was not used, or used in reduce sheet if necessary): 4. The characteristics of the so cubic fearing an average irrigation sease. 5. The maximum flow diverted	water was used for irrigation or deed quantity at any time, full information a solution and the solution of th	during which the full of the state of use to causes and duration of the claimed place of use ater used to irrigate the re-feet per annum.	water right was not used were f non-use should be given, appending se in an average year is se claimed place of use
3. The years during which no f water was not used, or used in reduce sheet if necessary): 4. The characteristics of the so cubic fearing an average irrigation seases. 5. The maximum flow diverted.	water was used for irrigation or deed quantity at any time, full information a solution and the solution of th	during which the full of the state of use to causes and duration of the claimed place of use ater used to irrigate the re-feet per annum.	water right was not used were f non-use should be given, appending see in an average year is
