

ROBERT O. ANDERSON, P.E.
President / Principal Engineer
Biographical Data Form (Curriculum Vitae)

R O Anderson

Mr. Anderson is responsible for the daily activities of this 30+person engineering, planning, and surveying firm. His broad experience includes planning and design of all sizes of residential and commercial development projects; planning, analysis and design of water system improvements, including municipal wells and distribution systems, sewage collection and disposal systems; hydraulic analysis of open channels; and bank stabilization improvements in stream environments. Mr. Anderson is further accomplished and actively practices Nevada water right analysis and permitting, title documentation and, as necessary, provides testimony in hearings before the Nevada State Engineer.

Mr. Anderson is recognized for being able to effectively and professionally manage complex projects with competing objectives in difficult regulatory or administrative conditions. He is, therefore, well versed in the environmental and land use permitting requirements in sensitive and highly regulated areas, and he is an accomplished administrator of construction contracts. He is regularly engaged to review allegations and prepare opinions in design, construction defect and Nevada water right related cases.
