3 **FIRST AMENDED COUNTERCLAIM OF THE**
4 **UNITED STATES OF AMERICA**
5

6 COMES NOW, the United States of America, at the request of the Secretary of Defense, the
7 Secretary of Agriculture, and the Secretary of the Interior, by and through its undersigned attorneys,
8 on its own behalf and for the benefit of the Walker River Paiute Tribe, the Yerington Paiute Tribe, the
9 Bridgeport Paiute Indian Colony, and several individual Indians who are owners of allotments, either
10 held in trust by the United States or held in restricted status by the United States, and herewith asserts
11 the following claims:

12 **INTRODUCTION**

13 1. This first amended counterclaim is made for the confirmation and declaration of certain
14 rights in the United States to the use and storage of water in, on, under and otherwise appurtenant to
15 certain lands in the Walker River basin owned by the United States that are under the jurisdiction of
16 the Department of Defense, the Department of Agriculture and the Department of the Interior; or, held
17 in trust or restricted status by the United States for the benefit of individual Indians, and certain
18 Indian Tribes. The rights set forth in this first amended counterclaim are in addition to the right to
19 divert the natural flow of the Walker River and its tributaries, awarded to the United States in the
20 Decree entered in this action on April 15, 1936, as amended on April 24, 1940 in United States v.
21 Walker River Irrigation Dist., In Equity No. C-125, hereinafter, the "Decree."
22

23 **JURISDICTION**

24 2. Jurisdiction over this first amended counterclaim is pursuant to (i) the continuing
25 jurisdiction of this Court, by virtue of the Decree entered herein, over the waters of the Walker River
26 and its tributaries in California and Nevada; (ii) 28 U.S.C. §1345 in that the proceedings are brought
27 by the United States; (iii) 28 U.S.C. §1367 which vests the court with supplemental jurisdiction; (iv)
28

1 28 U.S.C. §1651 which authorizes the court to issue all writs necessary or appropriate in aid of its
2 jurisdiction; (v) 28 U.S.C. §1331, in that this first amended counterclaim is brought by the United
3 States of America, on its own behalf and for the benefit of individual Indians, and Indian Tribes, and
4 the matter in controversy arises under the Constitution, laws or treaties of the United States.

5
6 PARTIES

7 3. Counterclaimant, the United States of America, appears in this case on its own behalf and
8 for the benefit of specified individual Indians, and certain Indian Tribes.

9 4. Counterdefendants are all claimants to water of the Walker River and its tributaries,
10 including groundwater.

11
12 GENERAL ALLEGATIONS

13 5. The United States of America, under the Decree, currently has the right to use the natural
14 flow of the waters of the Walker River and its tributaries in the amount of 26.25 cubic feet per second
15 with a priority date of November 29, 1859, to irrigate 2,100 acres of land on the Walker River
16 Reservation.

17 6. The suit commenced by the United States in 1924, under Docket Number C-125, was
18 brought to quiet title and only concerned the water rights for use on the Walker River Indian
19 Reservation as those boundaries existed at the time the suit was commenced. The suit did not
20 adjudicate the groundwater rights of any of the parties in the litigation.

21 7. Paragraph XII of the 1936 Decree, entered on April 15, 1936, was amended on April 24,
22 1940, to reflect that the Decree determined water rights "as of the 14th day of April, 1936."
23 Paragraph XIV of the Decree provides that this Court retains jurisdiction for a number of purposes,
24 including modification of the Decree.

25 8. Subsequent to April 14, 1936, numerous persons and other entities, including the United
26 States, have appropriated additional waters from the Walker River Basin and its tributaries. In many
27 instances such claims to the use of water have not been subject to any adjudicative process.

28 9. In addition to the Walker River Indian Reservation, there are other lands within the Walker

1 River Basin owned by the United States that are under the jurisdiction of the Department of Defense,
2 the Department of Agriculture and the Department of the Interior. There are also lands in the Walker
3 River Basin, in addition to the Walker River Indian Reservation, owned by the United States and held
4 in trust or restricted status for the benefit of specified individual Indians, the Bridgeport Paiute Indian
5 Colony and the Yerington Paiute Tribe.

6 These lands and their appurtenant water rights and claims for water are more particularly
7 described below.

8
9 **FIRST CLAIM FOR RELIEF**

10 **WEBER RESERVOIR**

11 10. Weber Reservoir is a federally-constructed reservoir located on the Walker River Indian
12 Reservation with a storage capacity of approximately 13,000 acre feet. The reservoir was practically
13 completed in 1935, although floodgates were added in 1937. The United States, for the benefit of the
14 Walker River Paiute Tribe, is entitled to store water from the Walker River and its tributaries in
15 Weber Reservoir for all purposes recognized under federal law including but not limited to irrigation,
16 stock watering, fish and wildlife, and domestic uses.

17 11. By the use of Weber Reservoir to store water, the Walker River Paiute Tribe can irrigate
18 more than the 2,100 acres which it presently is entitled to irrigate under the terms of the Decree.

19 12. The right to store water in Weber Reservoir has a priority date of April 15, 1936. The
20 amount claimed is 13,000 acre-feet plus evaporation and seepage.

21 **SECOND CLAIM FOR RELIEF**

22 **LANDS RESTORED TO WALKER RIVER RESERVATION**

23 13. Paragraphs 1-12 are incorporated herein as if fully set forth in this paragraph 13.

24 14. The Walker River Indian Reservation was established in 1859 with a land base of
25 approximately 320,000 acres. Under the Act of May 27, 1902, 32 Stat. 260-261, the Reservation land
26 base substantially reduced. A substantial part of these original Reservation lands, however, were
27 restored to the Reservation on September 25, 1936, pursuant to the Act of June 22, 1936. The Act of
28 June 22, 1936, 49 Stat. 1806-07, authorized the Secretary of the Interior to set aside certain lands as

1 an addition to the Walker River Indian Reservation. In accordance with the legislation, by Order
2 dated September 25, 1936, the Secretary restored to the Walker River Indian Reservation
3 approximately 167,460 acres.

4 15. The United States, for the benefit of the Walker River Paiute Tribe, is entitled to use
5 water from the Walker River, its tributaries, and all other water located in, on, under, adjacent or
6 otherwise appurtenant to the restored lands of the Reservation for all purposes recognized under
7 federal law. The restored lands of the Reservation are entitled to a federal reserved water right as of
8 the date of restoration.

9 16. The United States, for the benefit of the Walker River Paiute Tribe, is entitled to water
10 rights for the restored lands in addition to the rights now recognized for use on the lands of the
11 Reservation under the Decree.

12
13 **THIRD CLAIM FOR RELIEF**

14 **GROUNDWATER FOR ALL LANDS WITHIN WALKER RIVER RESERVATION**

15 17. The United States, for the benefit of the Walker River Paiute Tribe, is entitled to use the
16 groundwater of the Walker River basin located in, under, adjacent or otherwise appurtenant to all
17 lands of the Walker River Indian Reservation not otherwise claimed in this First Amended
18 Counterclaim.

19 18. The amount claimed is the amount necessary to fulfill the purposes of the Reservation.

20 19. The priority date claimed is November 29, 1859, or, in the alternative, April 15, 1936.

21 **FOURTH CLAIM FOR RELIEF**

27 described.

26 date claimed is April 9, 1979.

27 24. The federal reserved water claimed for the benefit of the Yerington Paiute Tribe is claimed
28 in order to fulfill the purposes of the Reservation. In addition to the claims set forth

1 above for federal reserved rights, the United States also seeks a declaration and confirmation of the
2 water rights held under state law which have been acquired in connection with the above described
3 parcels.

4

7 25. Paragraphs 1-24 are incorporated herein as if fully set forth again in this paragraph 25.

27 Garrison and Cluette allottees makes the following claim for water from the Walker River, its
28 tributaries, and all other water located in, on, under, adjacent or otherwise appurtenant to the lands

6 management of the Reservation was transferred to the Department of the Army.

7 44. Pursuant to 10 U.S.C. § 3062, Hawthorne's mission includes:

8 NINTH CLAIM FOR RELIEF

9 UNITED STATES DEPARTMENT OF AGRICULTURE

10 TOIYABE NATIONAL FOREST

11 53. Paragraphs 1-52 are incorporated herein as if fully set forth in this paragraph 53.

12 54. The Toiyabe National Forest extends from the crest of the Sierra Nevada range in
13 California east to the Cambridge Hills in western Nevada. The Forest was created from several forest
14 reserves which were withdrawn from the public domain beginning in 1907.

15 55. The Toiyabe National Forest is managed under several acts of Congress (hereinafter
16 "Acts") beginning with the Organic Administration Act of 1897, ch. 2, 30 Stat. 34, 16 U.S.C. § 475
17 (1988) which provides that the purposes of the national forests are, *inter alia*, to "improve and protect
18 the forest within the boundaries, or for the purpose of securing favorable conditions of water flows;
19 and to furnish a continuous supply of timber for the use and necessities of citizens of the United
20 States. . . ." The national forests are also managed under the principles of the Multiple-Use
21 Sustained-Yield Act of 1960, Pub. L. No. 86-517, §§ 1 - 4, 74 Stat. 215, 16 U.S.C. §§ 528-531 (1988)
22 (hereinafter "MUSYA"), which provides that the national forests shall be administered for outdoor
23 recreation, range, timber, watershed and wildlife and fish purposes. Portions of the Toiyabe National
24 Forest are administered pursuant to the Wilderness Act (September 3, 1964) Pub. L. No. 88-577, 78
25 Stat. 890, as amended, 16 U.S.C. §§ 1131-1136 (1988). Additionally, the National Forests and Public
26 Lands of Nevada Enhancement Act of 1988, Pub. L. No. 100-550, § 5, 102 Stat. 2749, 16 U.S.C. §
27 460ccc-3 (1988) which transferred lands between the Forest Service and the Bureau of Land
28 Management, "expressly reserves the minimum quantity of water necessary to achieve the primary

1 purposes for which the lands transferred . . . are withdrawn."

2 56. The United States is entitled to use the waters from the Walker River, its tributaries, and
3 all other waters located in, on, under, or otherwise appurtenant to the lands comprising the Toiyabe
4 National Forest in the amounts of water necessary to fulfill all purposes for which the reservation was
5 created as recognized under federal or state law. Such lands are entitled to a federally reserved water
6 right with a date of priority as of the date said lands were withdrawn and reserved from the public
7 domain.

8 57. In connection with paragraph 56, supra, the United States is entitled to an instream flow
9 reserved water rights in the amounts necessary to fulfill the purposes for which the Toiyabe National
10 Forest was established under the Organic Administration Act of 1897. This includes, but is not
11 necessarily limited to, reserved water rights in amounts necessary for the maintenance of the entire
12 reach of each stream channel and all its named and unnamed tributaries lying within the Toiyabe
13 National Forest.

14 58. The United States also has and is also entitled to both reserved water rights pursuant to
15 the Organic Administration Act and the above noted subsequent Acts as well as water rights under
16 state law, both surface and underground water, both consumptive and non-consumptive, which
17 include but are not necessarily limited to, all aquifers, springs, seeps, rivers, streams, lakes and waters
18 otherwise appurtenant to the Toiyabe National Forest in the amounts necessary to fulfill all present
19 and future administrative purposes on the Toiyabe National Forest as stated in the Acts. The use of
20 these waters include or will include, but is not necessarily limited to: fire management activities,
21 erosion control, revegetation, irrigation, domestic, stockwatering and timber production, which
22 includes but is not limited to, reforestation, road construction and maintenance and silvicultural
23 treatments.

24 59. The United States also has and is also entitled to reserved water rights pursuant to the
25 Organic Administration Act and its successor Acts in both surface and groundwater which includes,
26 but is not necessarily limited to, all aquifers, springs, seeps, rivers, streams, lakes and waters
27 otherwise appurtenant to Toiyabe National Forest in the amounts necessary for fighting fires in said
28 National Forest.

1 equipment. This training area is the only site available to the Marine Corps for these activities. To
2 support these training operations, the Marine Corps uses a 405-acre tract for a Base Camp, located at
3 the confluence of Silver Creek and the West Walker River. Additionally, the Navy owns a family
4 housing area 25 miles from the Base Camp.

5 65. The United States is entitled to use waters from the Walker River, its tributaries, and all
6 other waters located in, on, under, or otherwise appurtenant to the lands of the MWTC in the amounts
7 necessary to fulfill all purposes recognized under the federal and state law. Such lands are entitled to
8 a priority date as of the date of the reservation.

9 66. The Marine Corps is diverting and is also entitled to certain waters pursuant to federal
10 reserved, riparian, overlying, and appropriative water rights, including surface and groundwater
11 sources, which are identified below:

12 a. Silver Creek:

13 Water needs of the Base Camp are supplied by surface diversions from Silver Creek and two
14 groundwater wells, noted below. The Marine Corps uses water from Silver Creek based upon a pre-
15 existing Forest Service claim and statement of diversion (USFS No. 9839), which is based on a
16 riparian right, and has a priority date of 1951. Silver Creek surface water, up to 150 gpm, is diverted
17 via a spillway located upstream of the Base Camp.

18 Silver Creek surface water is used for purposes that include, but are not limited to, training,
19 domestic, industrial, fire protection, irrigation, construction, base hygiene, dust control, equipment
20 and road washing, and future regulatory requirements for fire sprinkler system cross-connection
21 control.

22 b. Base Camp Wells:

23 The Marine Corps' Base Camp domestic water demand is served by two groundwater wells,
24 which are located in the Lower Base Camp up-gradient from all the buildings. Water is diverted from
25 these wells up to the following amount:

26 Well No. 1 - 125 GPM.

27 Well No. 2 - 127 GPM.

28 An application for a Base Camp permit for both wells was submitted on May 26, 1993 to the

1 State of California, Department of Health Services.

2 c. Family Housing, Coleville, CA:

3 The Marine Corps also operates a family housing area on a tract approximately 40 acres in
4 size and about 25 miles from the Base Camp. The facility, owned in fee by the U.S. Navy, is located
5 within the West Walker River watershed on the eastern slope of the Sierra Nevada Mountains
6 between the towns of Topaz, Nevada and Coleville, California. More specifically, the housing
7 facility is located on the west side of highway 395, approximately 1.5 miles north of Coleville and
8 about a quarter mile from the river. The housing area's domestic water demand, including domestic
9 irrigation (lawn-watering of family gardens), is served by five wells. Water is diverted from these
10 wells up to the following amount:

11 Well No. 1 - 21 GPM

12 Well No. 2 - 27 GPM

13 Well No. 3 - 14 GPM

14 Well No. 4 - 21 GPM

15 Well No. 5 - 200 GPM

16 The State of California, Department of Health Services, granted a permit for Well Nos. 1 - 4
17 on December 15, 1986, as water permit # 86-048, and amended that permit on February 11, 1994, to
18 add Well No. 5 to the system.
