Carson City, NV 89701

Subject: A 300-Mile Pipeline is Not the Answer.

Dear Jason King,

Great Basin National Park is an extraordinary place--remote, scenic,
and treasured by millions of Americans who value our national park
system. Plans to pump millions and millions of gallons from the park's
vast ecosystem greatly threaten what is special about this place.

I appeal to you, Mr. King, each summer I enjoy this National Park but I
also

see a need to balance the needs of all citizens in the state of
Nevada.

I can foresee the need for 50% of the desired water request by the
Water

District.

Thank you,
Carroll Senn

Sincerely,
Mr. Carroll Senn
