

To: Susan Joseph Taylor  
Chief Hearing Officer

There needs to be a bill that forbids water transfers or appropriation of water resources from one county to another. Only build what can be handled with available water now/historically.

Suggestion for growth: Shift population into counties with available water & use commuter trains (reg. or high speed) which would be a plus with visitors. Check with Amtrak.

I have you in my heart.

Philippians 1:7 KJV

to say,

"You're in my thoughts  
and prayers today."

Amtrak also has rail train which allows travelers to bring their cars with them. Id.
