Jason King
NV

Dear King,

We believe the scientific information is overwhelming: Draining 50 billion gallons of groundwater from the Great Basin would devastate Native American communities, rural economies and wildlife habitat over a huge area.

Further, the families and small businesses of Las Vegas, recovering from a brutal recession, cannot afford the huge price tag for this project.

It's important for me that the Great Basin water stays in the Great Basin. The lessons learned in California should guide our decisions in taking water from another area. Growth in the Las Vegas will be restrained for some years to come. After that, additional growth SHOULD be restrained. PLEASE DO NOT TAKE WATER FROM THE GREAT BASIN.

We urge you to deny the applications filed by the Southern Nevada Water Authority and support the best interests of all of Nevada.

Sincerely,

Mr. Glenn Robertson
