

10/6/11

Mrs. Joseph-Taylor  
NDDWR

Dear Mrs. Taylor,

Don't approve Las Vegas' misappropriation of the rural area's water. They could conserve as much water as could be shipped if they wanted to do so. Turn off the Strip's fountains when the temperature reaches 80° to prevent, or slow down that is, the evaporation. Buy up lawns, etc. Give away low-flow shower heads, for a few examples. But don't let LV grab the rural's water.

Sincerely,

Janice Hanagan
